

## Our Values

The Candy Lab benefits both children and their parents through:

**Creativity and Expression:** The Candy Lab is a space where children of all ages can unleash their creativity and express themselves through art. Our goal is to nurture children's imagination and foster their artistic abilities.

**Skill Development:** The Candy Lab offers the opportunity to learn a new skill by gaining hands-on experience and developing fine motor skills.

**Social Interaction:** We offer a safe space where kids can interact with their peers, share ideas and collaborate on projects. This helps to build confidence, communication skills and teamwork abilities in children.

**Quality Time:** When children work with their peers, they spend quality time together in a fun and constructive environment.

**Finished Product:** Crafters are proud to share their completed artwork with their parents. This provides a sense of accomplishment and serves as a memento of their creative efforts.

**Unplugged Activity:** In today's digital age, the Candy Lab emphasizes the value of unplugging from screens and engaging in hands-on, tactile activities. We provide a refreshing break from technology where children can explore their creativity in a screen-free environment.

**Safe and Supervised Environment:** The Candy Lab provides a safe and supervised space for children to explore and create under the guidance of experienced instructors.

**Variety and Innovation:** The Candy Lab offers a diverse range of crafts and projects that highlight creativity and innovation. This ensures that our crafters remain engaged and excited about attending our sessions.
